

Political Contribution & Trade Association Memberships Report

From time to time ViatriS and ViaPAC, an employee-run and funded political action committee, support political candidates and organizations of various parties, as well as ballot initiatives and trade associations that support public policies that further ViatriS' mission to increase access to affordable, quality medicines.

ViatriS and ViaPAC comply with the laws that govern lobbying efforts and political contributions. Our semiannual Political Contribution & Trade Association Memberships Report provides details of ViaPAC giving to any political candidate, political organization, or ballot initiative; and the company's memberships in U.S. trade associations to which we contribute \$50,000 or more annually and the portion (if applicable) devoted to lobbying activity.

Further, in accordance with the U.S. Lobbying Disclosure Act, ViatriS files a quarterly report of expenses associated with lobbying the federal government. The report can be found on the U.S. Senate Office of Public Records website or the U.S. House of Representatives Office of the Clerk Website.
