

Viatriis 2020 Sustainability Report Highlights

Because good health matters to everyone, everywhere, we work to empower people worldwide to live healthier at every stage of life.

Sustainability is fundamental to our mission and our commitment to corporate responsibility drives us to provide patients with access to medicine, regardless of geography or circumstance. We partner with key stakeholders across the globe to help address some of the world's most pressing health, social and environmental challenges, and we are committed to creating lasting, positive change.

Areas of focus include:

Patient Health

with medicines and services addressing many of the world's most pressing health needs.

>80 Billion doses sold across >165 countries and territories, reaching 94% of low- and lower-middle-income countries

Our antiretroviral products reached 5x as many HIV patients as the branded originators combined¹

97 access countries reached²
According to the Access to Medicine Foundation's list of countries

1,400+ approved molecules

>300 biosimilar marketing authorization approvals globally

Employee Health

as >40,000 colleagues across 70+ countries are working together to build Viatriis as a new healthcare company.

The Viatriis Way is how we're establishing an engaging and highly inclusive culture

2,000 colleagues participated in virtual development courses on working and leading remotely

~11,000 members of our field force

~2,900 R&D, regulatory and medical experts

WE SUPPORT

VIATRIS™ is a signatory to the UN Global Compact and supports the global sustainable development agenda for 2030.

VIATRIS' ROLE IN THE FIGHT AGAINST COVID-19

We are committed to doing our part to support public health needs amid the pandemic. Our priorities remain:

- Protecting the health and safety of our workforce;
- Producing critically needed medicines;
- Deploying our resources and expertise through potential prevention and treatment efforts;
- And supporting the communities in which we operate.

ABOUT VIATRIS

Viатris empowers people worldwide to live healthier at every stage of life. We provide access to medicines, advance sustainable operations, develop innovative solutions and leverage our collective expertise to improve patient health.

We believe in healthcare not as it is, but as it should be. Because of our unwavering belief that better access leads to better health, we leverage our best-in-class manufacturing and scientific expertise and proven commercial capabilities to bring quality medicines to patients when and where they need them.
